

# INSTRUCTIONS FOR TEMPERATURE CHECKING

## Temperature Check

All people entering dock10 are required to check their **temperature** before entering the facility for the first time each day using the **device situated at Stage Door Reception in the Open Centre or The Landing Reception.**

- 1** Stand in front of the device and follow the instructions.
- 2** A **Green light** and voice message indicates you are **OK to enter.**
- 3** If there is a **Red flashing light and alarm** this indicates an above normal temperature which can mean you have a fever. **Do not enter but wait 15 minutes and repeat the check.**
- 4** If you have a **second indication of above temperature,** do not enter the facility, contact your manager or contracting person and advise them of the situation. You must then go home immediately and contact NHS 111 for advice.

**Thank you**  
for your cooperation in these difficult times
